About Us

Welcome to VIJIN, your trusted partner in providing high-quality materials for modern construction and design. We specialize in WPC (Wood Plastic Composite) and PVC foam sheets, ACP (Aluminium Composite Panels), WPC louvers, and GI (Galvanized Iron) louvers. Our diverse product range is designed to meet the needs of architects, builders, and designers seeking durability, sustainability, and aesthetic appeal.

Our WPC and PVC foam sheets offer an excellent strength-to-weight ratio, water resistance, and eco-friendly properties, making them ideal for a variety of applications, from facades to furniture. We also supply premium ACP sheets, known for their superior weather resistance, lightweight nature, and ability to create sleek, modern finishes for both interior and exterior spaces.

In addition, we offer WPC and GI louvers that provide practical solutions for ventilation, privacy, and shade while enhancing the overall look of any structure. Our WPC louvers bring natural elegance with the added benefits of low maintenance and high durability, while our GI louvers offer exceptional strength and corrosion resistance, making them perfect for industrial and commercial settings.

At VIJIN, we are committed to delivering products that combine innovation, quality, and sustainability. With our experienced team and dedication to customer satisfaction, we ensure timely delivery, personalized service, and expert guidance to help you select the best materials for your project.

WPC & PVC Foam Sheets

For Strength, Style & Sustainability Discover Vijin WPC (Wood-Plastic Composite) and PVC Foam Sheets, premium solutions for durable, lightweight, and versatile applications. Perfect for indoor and outdoor use, these sheets offer a smooth finish and superior performance.
